The Co-op has partnered with this cutting edge software company to provide its members with <u>ComVida's Human Resource Software</u> at a discounted price. This is an opportunity for members, regardless of size, to track vital employee information with ease, prepare payrolls in record time, and handle the most complicated employee scheduling, all at very competitive prices.</p> <p>ComVida is already supplying its employee management software to many organizations in BC and across Canada. The Co-op has been attracted to this software because of its ability to perform with ease some of the most labour intensive administrative functions that take time to be effective and demand accuracy.</p> <p>The software is modular. For example, you can purchase the HR component to track all of that personnel information that seems to be constantly changing, and you can purchase the payroll and scheduling components at a later date, or not at all.</p> <p>The best way to access this software is to see it in action. Contact the Co-op and we will arrange an on-site, no obligation demonstration. Ask, as well, for a price quotation. The Co-op and ComVida have agreed to a pricing structure that significantly benefits Co-op members, so much so that one agency recovered its entire Co-op membership fee through this one purchase.</p> <p>The price of the software varies depending on how many of the software capabilities you purchase and how many employees you will be tracking.</p> <p><b><u>To Obtain More Information on United Community Services Co-op's and ComVida's HR Software Offer</u></b> Contact United Community Services Co-op Call 604-718-8292 Email <a href="mailto:info@ucscoop.com">info@ucscoop.com</a> Or send us a fax 604-488-1022</p>
